Summary

Entry level Cloud Engineer, I completed six month of AWS Solutions Architect training with DATAGEND Training Academy. I learn alot about cloud migrtion in a cost effective way which seems pretty intersting. I am very much excited and ready to resume a role as an intern with companies looking forward to move to the cloud or companies who already excit in the cloud. I would like to gain more exposure with real life projects so as to expand my knowledge on all what I have studied while getting ready for the job market.

Skill Highlights

- Terraform
- Cloud formation
- IAM
- Efficient and accurate
- Office equipment operations
- Business operations
- Team building
- Administrative support
- MS Office
- Excellent communication
- presentation skills for management

Experience
